ROCKNOLL NURSERY

for Better Gardens

FOSTER, OHIO

Personalized Service to Garden Lovers

The plants listed in this catalog have been carefully selected because of their proven worth for the amateur gardener. The real test for all seed and plants, is whether they will grow and thrive in the average garden, not in the nurseryman's trial garden or in some botanical garden.

Rocknoll Nursery offers you only those plants that have stood this test, selecting the varieties which we feel confident will give you the most lasting satisfaction.

We are glad to respond to inquiries concerning gardens, and to cooperate with Garden Clubs and Botanical Societies.

KOREAN MUMS

A New Race of Free Flowering Hybrids

ROCKNOLL

NURSERY

for Better Gardens

After many years work crosses between the common garden Mums and the extremely vigorous and hardy white Korean Mums have been made. The result is a new race of Mums with the hardiness and vigor of the Wild Asiatic Mum on one side and the colors of the garden Mums on the other.

Only the best colored hybrids in pastel shades that will blend perfectly with other garden subjects have been selected and named. These form bushes 2 to 2½ feet tall that are literally clothed in September and October with large showy flowers 3 inches or more in diameter. The flowers are mostly single giving the effect of myriads of daisies in a colorful array.

MAGIC LILY FAIRY LILY HARDY AMARYLLIS *Lycoris squamigera*

This rare Japanese bulb blooms in August in either sun or shade. The name, Magic Lily, comes from the habit of this plant producing its large showy lavender pink lily-like flowers, overnight from the bare earth. Large strap shaped leaves appear in the early spring but soon die down; nothing more being seen of this plant till August.

A MOST INTERESTING AND HARDY PLANT.
